## 3 Read, talk & draw

Grown-up reads: A seed can grow into a new plant when it has the conditions it needs. Many seeds need water, air, and a suitable temperature to sprout. A small root grows down. A shoot grows up. As leaves open, the young plant uses light to grow.

Ask: Which way does a shoot grow?

Draw / tell: Draw a shoot growing up. Tell one fact from the text.

She may draw, label, or dictate. Grown-up writes her words.

Small steps count. Grown-up may write your words.
