

Words I can explore

Ready for more: model together, then let Anastasia try.

Connect - 2 min: Say or write your name. Revisit one sound and count 5-10 objects.

1 Listen, blend & read

4 min

Listen: Adult reads cub and cube. In cub, u is short. In cube, u and silent e show long u, its letter-name sound. Say both with help.

cub **cube**

Grown-up teaches: Choose two words: my, is, you. Grown-up writes each on scrap paper; read, cover, and write it with help.

My cup is in the tub.

Explain where the cup is. Circle the little word in and act out its meaning with a real object.

2 A little writing

3 min

Trace the model. Copy it once, or write one letter with help.

tub **tub** **tub**

3 Read, talk & draw

4 min

Grown-up reads: People use water to drink, wash, and grow food. Plants and animals need water too. We can help care for water by turning off a faucet when we finish. Keeping litter away from streams helps protect the places where living things make their homes.

Ask: Who else needs water?

Draw / tell: Use your five weather observations from page B. Draw one finding. Tell one thing you still wonder.

She may draw, label, or dictate. Grown-up writes her words.

One thoughtful try is enough. Use a model whenever helpful.

Numbers & discoveries

A useful little report

4 Count, play & explain

7 min, including writing

Circle the larger number in each pair.
You may make matching sets of counters to check.

4

7

9

6

3

8

Draw more circles in the second box so both have the same.

Say together: Start at 57. Count on to 67.

Say this number. Trace it. Try writing it once.

17 17 17

5 Discover & do

3 min

science and shared research

Add today's final weather mark. Compare all five days: which observations repeated? What changed? Tell how the record helped you answer. A short record can show what happened on these days; it does not tell every season's pattern.

I practiced today. I feel:

happy

okay

need a hug
